

**Defect ID:** 105

**Title:** Table Disappears When Filtering for Unpublished Topics After Publishing All

**Reported by:** Ajith Lal

**Defect Priority:** High

**Defect Severity:** Critical

**Description:**

On the dashboard tables, When user chooses sets all topics as published and applies filter for unpublished, table itself found disappeared

**Steps to Reproduce:**

1. User login the application
2. Make all the topics as published
3. Apply filter for unpublished
4. Observe that the table itself is gone.

**Expected Result:**

Even though no rows are there , the table header should be there.

**Actual Result:**

Entire table is disappeared when unpublished topics are filtered after having all the topics as published
